## THE BIKE SHOW IN EUROPE

**Sea Otter Europe is the cycling festival in Europe** that will be held in the city of Girona on the **20th, 21st and 22nd of september 2024**.

In just a few years of existence, the festival has achieved **surprising results**: 64,160 visitors, +5,000 participants in sporting events and a total of +400 exhibiting brands, according to last year's records.

Sea Otter Europe is coming back for the next edition with a complete **sports programme**: with events for the competitive and amateur public, an **exhibition area** with the best brands on the market, **demo tracks ideal** for enjoying and testing bicycles, and a list of activities dedicated exclusively to the sector's professional public.

All this in the province of Girona-Costa Brava, which guarantees good weather, good food and a first-class natural environment.

A festival that is gaining **international recognition in the sector and among cycling enthusiasts**: in just a few editions, it has become an essential and compulsory meeting point for the cycling community.

## THE MOST AUTHENTIC MARATHON CIRCUIT

The CANYON MARATHON CUP BTT is one of the most successful bike marathons in our territory. It has been a benchmark competition since 2006. Compete against yourself or some of the best XCM-XCP athletes.

Start at Fontajau, then go to Sant Gregori (KM 6,5). At Argelaguer bridge, we go to find Font del Raig at KM 8,2. From there, we alternate paths and tracks through forests to reach San Gregorio at KM 13,2. We enter the path at Fuente de Can Verdaguer to go towards Can Taco de Ginestar (KM 19). We cross the Llémena stream (KM 20,7). Then there's a technical climb, followed by another to the point where XCP and XCM distances separate (KM 24). We go down to Llora, where there's a flat 3 km track to relax our legs. At 30,5 we cross the river again and climb steeply until 31,8. Here, we find a refreshment stand and a technical area for equipment. We change sides of the mountain to enter an area of technical descents and climbs on a track to reach KM 41,5 where the two XCM and XCP distances meet again. We will have a refreshment stand here to face the last part of the route. The route goes up and down until KM 47. Then it goes towards Sant Gregori, along the river Ter until Fontajau (KM 59,2).

- **DATE** 21.09.24
- **XCM START** 09:15H
- **XCP START** 09:20H
- **XCM CIRCUIT** 59,51 KM | 1.504 M+
- **XCP CIRCUIT** 42,24 KM | 866 M+

RULES

## CONTROL POINTS

There will be several checkpoints along the route to ensure the safety of all participants, a key point in our organisation of sporting events, which always tries to minimise any unforeseen events.

In the event of an accident, the controls will protect the injured runner and warn the runner behind. Meanwhile, the control director will be asked for assistance to assess whether the organisation's medical assistance should be activated.

## AWARDS CEREMONY

Prizes will be awarded to the first 3 classified in each category in PRO mode (competition), both in the long distance (XCM) and in the short distance (XCP). In addition, there will be the awards ceremony of the general classification of the Marathon Cup BTT 2024.

## ECO-RESPONSIBILITY

It is very important not to leave any rubbish in the countryside and to use the containers that you will find at each refreshment point, in this way we will respect the environment and the flora and fauna that Girona offers us.

Solidarity and respect for riders, volunteers, sponsors and the public are essential elements of the CANYON Marathon Cup BTT. Every wrapping or container that we throw on the ground must be picked up by someone. When we throw it away, we should think of the volunteer who will have to pick it up.

## MEDICAL DEVICE

- 1 PMA at the finish line
- 1 SVA + 1 SVB on the route
- ORGANIZATION'S EMERGENCY PHONE NUMBER
